TIER 3: ENGINEERING DRAFTING & DIGITIZATION INTAKE

This form initiates the "Green Lane" fast-track workflow for drafting, reverse engineering, and CAD services. Data entered here dictates immediate project triage (e.g., Metrology dispatch or immediate modeling).

1.0 CLIENT INFORMATION (SSOT GENERATOR)

Organization / Client Name	Contact Person & Title
Email Address	Phone Number
Physical Address / Project Site Location	

2.0 THE SOURCE ASSET (What are you bringing us?)

Select the primary input type. This determines our technical approach and pricing.

Input Material Type

☐ **Physical Part / Machine** (Requires physical metrology/scanning)

☐ **Legacy 2D Drawings/PDFs** (Conversion to 3D CAD)

☐ **Hand Sketches / Concepts** (Requires engineering detailing)

☐ **Existing 3D Models** (Needs 2D drawings / BOM extraction)

Asset Condition / Description (e.g., "Broken cast-iron pump housing" or "15 scanned PDFs")

3.0 REQUIRED DELIVERABLES & END GOAL

Drafting Services Required (Select all that apply)

☐ 3D Solid Modeling (STEP/IGES)	☐ Exploded Views for Manuals
☐ 2D Manufacturing Drawings (GD&T)	☐ Automated BOM Extraction
☐ General Arrangement / Assembly	

End Goal / Primary Use Case

Select: CNC Machining, Patent Filing, Technical Manual, Digital Archiving...

4.0 TECHNICAL SPECIFICATIONS & PREFERENCES

Drafting Standard

ISO / ASME / No Preference

Preferred Output Formats

PDF, DWG, DXF, STEP, Native CAD
